

### **Farm-to-School program gets \$10,000**

**Green Mountain Farm to School** received \$10,000 in a **Vermont Community Foundation** successful communities grant.

The money will support the developing of a regional food distribution system to sell Vermont farm products directly to schools. The grant will help support local farms, provide students with

fresh, nutritious foods and educate the Northeast Kingdom community about the benefits of eating locally grown foods, GMFTS said.
